RE: U.S. Patent No. 6,258,000
Our Ref: EOD-409
Your Ref: 14291.11

Dear Mr. Tangren:

This office represents Game Tracker, Inc. (GTI) in intellectual property matters. We are in receipt of your letter of July 25 to Mr. Lennie Rezmer at GTI. We are in the process of evaluating U.S. Patent No. 6,258,000 to Liechty (the '000 patent), as well as the file history thereof.

As you may be aware, Mr. Liechty was not the first inventor to patent an arrowhead having retractable mechanical blades and a fixed blade located forward thereof. Because of existing prior art, including US patents 2,568,417, 3,578,328 and 4,949,246, Mr. Liechty was only entitled to subject matter that was new and unobvious, as of his filing date. Therefore, the coverage of the '000 patent is somewhat limited in scope, and does not cover every arrowhead design having retractable mechanical blades and a fixed blade located forward thereof.

If you wish to discuss this matter further, please send communications about this matter to this office.

Sincerely,

William D. Blackman
